

MATH 2:

Elementary & Beginning Intermediate Mathematics with **Life of Fred** & **Mighty Mind**

Mathematics 2 – Elementary Math Round II

Introduction and Instructions

This course picks-up where Math 1 ends, beginning with the end of the fourth book of the Life of Fred Math Elementary Series: *Dogs* and continues through the first half of *Liver*.

It also incorporates the second year of the *Mighty Mind* spatial reasoning and logic curricula.

Materials Needed:

LOF *Dogs, Edgewood, Farming, Goldfish, Honey, Ice Cream, Jelly Beans, Kidneys and Liver* may each be available used through amazon, ebay or elsewhere used, or can be purchased new at www.lifeofeachfredmath.com for \$16.00 each. Again, these books hold their value and are often sold used for the original pricing. Therefore, your total outlay may only be what is spent in taxes and shipping. They are hardback, not written in, and will last for years if you have other children who will be using them.

Mighty Mind Super Challenger, as shown on the title page, is available through amazon for \$29.80. This is very helpful in developing minds that are creative, that think, are that able to solve difficult problems.

Course Format:

The course contains two parts, taught independently:

- Life of Fred Mathematics and
- Mighty Mind hands-on Puzzles.

Overall there are 144 lessons proper, plus the Friday Rs.

Lesson Format:

LOF LESSONS -

- Begin with prayer
- Continue with doing your math related Brain Gym exercises. ALWAYS sip water.
- Bring paper and pencil so that you can workout the problems.
- Do the lesson as given in the lesson grid.
- Do YOUR TURN TO PLAY without looking at the answers.
- Then check the answers.
- If you made a mistake you do not understand, re-read the pertinent portion of the lesson. (The student should figure it out in his own mind with as little parental or teacher influence as possible.)
- Close the book, file your YOUR TURN TO PLAY paper in your math binder, and put your supplies away.

MIGHTY MIND LESSONS -

- Follow the lesson grid as to when you do these lessons.
- They are spread out throughout the Math 2 course.
- You may do them before, or after LOF math or any other time during the day.
- Do your PACE exercises before beginning.
- Take out your supplies, keep them together, away from little ones.
- Do your assigned puzzle and return your supplies to the shelf or cupboard.
- NOTE: You may be tempted to do more than one puzzle. That's fine. Do, do the assigned puzzle on the assigned day as well. THANK YOU.

Certificates of Achievement:

Award a Certificate of Achievement in each of the following cases -

- 1 – Student finishes each of the LOF books: *Dogs, Edgewood, Farming, etc.*
- 2 – Student finishes each phase of the *Mighty Mind Super Challenger*.

MATHEMATICS 200 LESSON SCHEDULE GRID

Lesson #	LOF Lesson	Mighty Mind
1	Review Basics from Course 1: Addition Facts Do Dogs, Chapter 17	Begin with Mighty Mind Challenger Puzzle A
2	Review Subtraction & Do Dogs, Chapter 18	Puzzle B
3	Review Time & the Calendar; Do Dogs, Chapter 19	Puzzle C
4	Review other Math 1 Concepts; Begin <i>Edgewood</i> , Do Chapter 1	Puzzle D
5	FRIDAY Rs	
6	Read & Do Edgewood, Chapter 2	Puzzle E
7	Read & Do Edgewood, Chapter 3	Puzzle F
8	Read & Do Edgewood, Chapter 4	Puzzle G
